— Organization —

Game2Grow is a Pan India training and talent development company that transforms how individuals and organizations build skills — through carefully designed game-based simulations and experiential methodologies. Founded by Anjen Fernando, a certified Professional Trainer in Experiential Learning (IIPE, Canada), Game2Grow serves students, working professionals, and corporates across India — improving employability, confidence, and industry readiness.

— Vision —

"To empower students and working professionals to perform at the peak of their potential through the power of play."

— Mission —

"To provide gamified, simulation-based learning experiences that transform individuals into confident, capable leaders."

— For Whom We Serve —

The world doesn't reward those who know. It rewards those who DO. At Game2Grow, we create learning experiences so real, so intense, so transformative — that by the time you step into the real world, you've already been there.

Students

Stop preparing. Start performing.

Working Professionals

From good to unstoppable.

Entrepreneurs

Think sharper. Lead stronger. Win bigger.

Corporates

Build teams that don't just work — they WIN.

HR Leaders

Redefine how your people grow.

Methodology

People learn best by doing. Game2Grow training methodology is rooted in the science of experiential learning through play. Every session is designed as an immersive game-based experience where participants make decisions, face consequences, reflect, and grow. Our scientifically backed techniques include:

- **Game-Based Simulations**
Real-world scenarios recreated as strategic games and board simulations.
- **Role-Play & Dramatics**
Live dramatization of workplace and life situations for deep insight.
- **Case Studies & Debriefs**
Structured reflection to extract and apply learning from every game.
- **Catharsis & Transformation**
Powerful exercises that break limiting beliefs and build new habits.

Voices of Transformation

Anjen's game-oriented training for our employees was truly powerful — the transformation was visible. Unlike conventional PPT-based sessions, the game approach kept everyone deeply engaged and they thoroughly enjoyed every moment of it.

Dr. Muralisankar

Founder & CVO, Yardstick Digital Solutions

Anjen conducted both the FDP session for our faculty and the industry readiness program for our students — and both were exceptional. The game-based approach kept everyone engaged, and the transformation was clearly visible across the board.

Dr. Manju

Placement Director

This session gave us a completely new insight into mentoring and guiding students. The experiential approach made every concept stick — highly impactful!

Ms. S. Vaishnavi

Assistant Professor

The session was truly eye-opening. It shaped my perspective on professional conduct and organizational ethics in a way no classroom ever did.
